

QUALITY CABINETRY & ARCHITECTURAL MILLWORK

CNC OPERATOR/PROGRAMMER

Salary: \$25-\$35 per hour depending on experience.

A CNC Operator/Programmer required for a well-established custom millwork shop located in Port Alberni, BC. Our shop specializes in quality architectural residential and commercial woodwork and offer a comprehensive service from consultation and shop drawings to hand craftsmanship and installation.

Responsibilities:

- Program/machine millwork components
- Ability to read and interpret engineered shop drawings
- Set up, operate, and maintain a variety of conventional and computer numerically controlled (CNC) machine tools
- Machining & assembly
- Ability to run and operate other woodwork machinery when required
- High-level quality control of projects with an emphasis on double-checking your work to ensure quality and accuracy
- Communication with Supervisor & Team Members
- Adhere to shop policies

Required Skills and Experience:

- Experience with or good understanding of millwork and cabinetry
- Experience in operating/programming Biesse & SCM CNC machines
- Experience in machining MDF, particle board, solid wood, and other composites
- Experience with BiesseWorks and AutoCad would be an asset
- Excellent comprehension of shop drawings, machining & assembly methods
- Ability to meet deadlines
- Strong communication skills

Equivalencies will be considered.

We appreciate all applications and thank you for considering De Vries Fine Woodworking as your employer of choice.

Please apply with a résumé in person at 4921 Bute Street, Port Alberni, BC, or via email to jobs@devriesfinewoodworking.ca.
