About the Role

We are looking for a dynamic and creative person to join the arts council! We are hiring a dual role that is essential to support the growth of our organization. The marketing & administration assistant will wear two hats: an organized administrator who keeps our membership and contact records accurate, and the creative marketer who tells our community stories using design, photo and video.

This is a small-hours, high-trust position, with room for growth and advancement. The ideal candidate will be able to work independently, follow task lists diligently, and report to the Executive Director. This role is best for someone who can think outside the box, be confident, communicate clearly, and have strong computer skills.

The right person already loves the Port Alberni arts community, or is eager to get to know it. Much of this job is working with and supporting artists, so warmth and curiosity matter as much as software skills.

This role is great for someone with previous administration and marketing experience, but those who are developing their skills are still welcome to apply.
