

## **966G Loader Operator Quarry Operations Remote Ahousaht BC**

Sproat Lake Contracting Ltd. is hiring a **966G Loader Operator with dedicated quarry experience** for a remote project in Ahousaht BC. Applicants must have **direct quarry production experience**.

### **Role Summary**

Operate a **Cat 966G wheel loader** in an active quarry supporting crushing and screening operations. This role requires experience managing **material flow, payload accuracy, and production consistency** in a quarry environment. This is a rotation based remote position.

### **Core Responsibilities**

- Operate a Cat 966G loader in a production quarry
- Load crushers, screens, and trucks while maintaining consistent feed rates
- Measure, monitor, and record payload weights to prevent overloading and production variance
- Manage stockpiles by material type and gradation
- Track daily production volumes and communicate targets and issues to supervision
- Perform daily equipment inspections and report mechanical issues promptly
- Maintain safe quarry traffic flow and loading zones
- Comply with all WorkSafeBC, site specific, and company safety requirements

### **Mandatory Experience and Qualifications**

#### **Applicants will not be considered without**

- 3 to 5 plus years operating a 966-class loader
- Documented quarry experience including aggregate, rock, or crushing operations
- Experience loading crushers and screening plants
- Experience using payload systems or manual payload tracking
- Understanding of material densities, face conditions, and load control
- Valid driver's licence
- Ability to work independently in a remote camp-based environment

### **Assets**

- Mechanical aptitude and proactive equipment care
- First Aid certification
- Experience working on remote or Indigenous community projects

### **Location and Schedule**

- Remote project location Ahousaht BC
- Rotation based schedule with details provided during interview
- Camp accommodations provided
- Transportation to and from site provided
- Typical work schedule is 8-10 hours per day on a rotation-based schedule

### **Compensation**

- Competitive hourly wage \$32.00 - \$40.00 per hour DOE based on quarry specific experience
- Overtime paid in accordance with BC Employment Standards
- Per diem provided for eligible workdays
- Opportunity for ongoing work

### **How to Apply**

Please submit

- A resume clearly outlining 966G loader hours, quarry experience, and payload tracking experience
- Current professional references
