

Ridge View Health & Performance is looking to add a physiotherapist to our busy multidisciplinary team in Port Alberni, BC!

Port Alberni is one of the most affordable communities on Vancouver Island and is a dream location for outdoor enthusiasts! Our clinic is located close to great hiking and mountain biking trails, and is only a short drive away from swimming, fishing, surfing and skiing. Port Alberni is a very tight knit community with many recreational sports leagues, hobby groups and much more. There is something for everyone here!

Ridge View Health & Performance is a collaborative team of fitness-forward practitioners offering physiotherapy, massage therapy, acupuncture, athletic therapy, kinesiology and yoga. We value the fact that health is not one size fits all, so we work very closely as a team to meet the unique needs of each client.

We have developed a strong inter-professional referral network in our community. We regularly receive referrals from local GPs, chiropractors, OTs and fitness professionals providing a steady stream of new patients. We enjoy a diverse caseload and aim to provide care to underserved populations through initiatives such as a cardiac rehab program.

Our team is community-focused, regularly lending a hand to various local causes, providing education to community members, and organizing events that promote health and wellness. Care provided at Ridge View Health & Performance is one-to-one with 45-60 minute initial assessments.

Our clinic space is brand new, bright and modern. Team members will have access to the following:

- Private treatment rooms
- Full time admin support with direct billing to all major insurance providers (including ICBC)
- Online booking/charting using Jane App
- Flexible scheduling options
- Marketing/social media provided
- Large gym space with brand new equipment and yoga/pilates studio
- Regular inservice and education opportunities

We are looking for a full-time physiotherapist to join our team, but are also open to a part-time team member. Compensation is provided as a competitive % fee split, with both employee and contractor models available. We offer a \$2000 annual education allowance for our employees as well as a signing/relocation financial bonus. Canada Life benefits are provided to all full-time employees. We are also happy to provide assistance in finding accommodations through our community ties. The demand for physiotherapy at our clinic is extremely high and a full caseload is available. Skills such as IMS/dry needling, pelvic floor rehabilitation and concussion management are an asset.

New grads are welcome! Structured weekly mentorship will be provided and will be tailored to your individual interests.
