

Wastewater Treatment Plant Operator

Creative Salmon is Canada's first certified organic salmon farming company. We require a Wastewater Treatment Plant Operator full-time, year-round in Tofino, B.C.

The Operator will report to the Biology Manager and work with another Operator to ensure the safe and efficient operation of the fish processing plant wastewater treatment system including:

- Maximizing the potential of equipment and processes
- Collecting and analyzing samples
- Maintenance, installations, and cleaning
- Inspections and trouble shooting
- Data collection and record keeping

Related education and/or experience is preferred but we are willing to train an enthusiastic and reliable candidate with problem solving skills, strong attention to detail, basic computer skills, respect for safety, environmental, and regulatory protocols, and a willingness to pursue additional training.

The position offers a competitive salary commensurate with experience and a generous benefits package. Candidates must be legally entitled to work in Canada.

Applicants are to apply (include a cover letter), by June 16, 2023, to hr@creativesalmon.com
