

Job Opening: Heavy Duty Equipment Mechanic

Location: Port Alberni

Company Intro:

AMIX Group is a diversified industrial and infrastructure service company specializing in marine transportation, metal recycling, and ready-mix concrete across Western Canada.

Founded in 1971, AMIX Group has evolved from a metal recycling business into a multi-faceted organization offering *end-to-end solutions* for industrial and marine-based projects. The core services include Marine Services & Projects, Metal Recycling and ready-Mix Concrete. AMIX prides itself on its *professionalism, safety standards, and entrepreneurial spirit*, delivering comprehensive services that often integrate multiple business lines to maximize value for clients.

Summary:

AMIX is looking for skilled and experienced individuals to fill positions as Heavy Duty Mechanic in our Port Alberni location. Reporting to the Maintenance Manager, this role will work with the team to ensure efficient and smooth operations for the company assets.

This is a Unionized position with the International Union of Operating Engineers 115.

What will the role be doing:

This position will be responsible for applying a combination of skills and tenacity to achieve results, often in remote and sometimes austere conditions. The Heavy Duty Mechanic will have Port Alberni as their home base but will need to be able to travel to worksites located outside Port Alberni as required.

This role requires the ability to build and maintain relationships within the company, especially related to interaction with the fleet operations group including equipment operators, marine personnel and yard personnel.

Responsibilities:

The Heavy Duty Mechanic will be responsible for the following:

- Perform planned preventative maintenance activities and repairs on all types of heavy equipment
- Perform running maintenance repairs on various types of heavy equipment.
- Rotate through shop and field assignments as required
- Perform large component replacements
- Maintain accurate records of maintenance performed and equipment deficiencies

- Participate in the development of, and the ability to follow maintenance procedures and instructions
- Participate in safety programs and adhere to site safety standards including the safe operation of machinery
- Travel to remote sites to provide maintenance and repairs on equipment as required
- Ability to troubleshoot engine, hydraulic, electrical, braking and powertrain systems
- Other duties as assigned

Qualifications and Experience:

AMIX is looking for a candidate with the following qualifications and experience:

- Red Seal Interprovincial Heavy Duty Equipment Technician Qualification – Experience with large off-road Heavy Equipment (Manitowoc 4600 Cranes & Support equipment, loaders, excavators, generators and small ancillary equipment)
- A Valid Driver's License
- Able to work at heights and within confined spaces
- Physically fit with the ability to climb ladders and work over or near water
- Effective communication and organizational skills
- Ability to work with diverse individuals and groups
- Strong mechanical aptitude & technical skills
- Strong personal commitment to safety and the well-being of coworkers
- Experience with Maintenance Tracking Software and working knowledge of Microsoft Office

Compensation:

This position starts at \$54.15 Journeyperson rate per hour. Wages and benefits are as per the IUOE Local 115 Collective Agreement. Employment will require union membership.

We thank everyone who applies, and we will be following up only with those who we would like to speak with further. Must be legally able to work in Canada.
